SaaS B2B Consultant | IIM Product Committee | Microsoft PM Engage Finalist | ACM ICPC Nationalist

Summary

Lead Consultant with 2+ years of enterprise experience selling and positioning AI-powered Digital Shelf Analytics (SaaS) to global CPG, Electronics, Fashion, and Hi-Tech brands. Expertise in eCommerce channel strategy, RFP/PoC delivery, and CXO engagement. Alumni: IIM Kozhikode MBA | NIT Allahabad (B.Tech - IT)

WORK EXPERIENCE

eClerx Services Ltd **Lead Consultant** **May'24 - Present**

- Led presales solutioning for eClerx's AI-powered Analytics **SaaS platform**, driving end-to-end sales cycles for enterprise **CPG, Electronics, Fashion, and Hi-Tech** clients across US eCommerce channels
- Conducted discovery sessions and translated client eCommerce challenges including share of search, content compliance, pricing consistency and product availability into tailored solution proposals and live **PoC demonstrations**
- Engineered **RFP/RFI responses** showcasing capabilities across digital shelf KPIs: share of shelf, ratings & reviews sentiment analysis, PDP content compliance, and competitive intelligence across **90+ retail sites**
- Achieved **120% of sales quota**, generating **$1.5M in client revenue** by positioning SaaS analytics platform as a data-driven eCommerce growth platform against competitors in the Retail Intelligence category
- Developed competitive intelligence and pricing strategies leveraging tool's marketplace analytics, helping clients improve product discoverability and channel performance across Amazon, Walmart, and other major retailers
- Built reusable presales assets - **capability decks, solution frameworks, demo scripts,** and **ROI models** - accelerating deal cycles and improving proposal quality across the sales team
- **Achievements:** eClerx platform is recognized as a **G2 Leader** in Retail Intelligence and winner of **Best Analytics & BI Solution** at the 2024 E-commerce Germany Awards platform actively sold and positioned to Fortune 500 clients

Samsung R&D Institute India **Senior Software Engineer** **Jan'21 - Jun'22**

- **Achievement:** Felicitated with Samsung Excellence Annual Award in the network team for contribution to new release
  - Awarded INR 50,000 for achieving the Samsung Software Competency Professional Certification in just 3 months
  - Received Team Awesome Award in network team for best overall performance of team for development activity
- **Roles and Responsibilities**: **Senior Software Engineer, Network Modem Department**
  - Optimized 2,500+ lines of code, aligning product features and addressing bugs for precise requirements
  - Partnered with cross-functional product and client teams to gather technical requirements and translate them into feature enhancements, gaining foundational experience in solution design and stakeholder communication
  - Facilitated feature operations for key clients, adapting based on customer feedback through agile code merge tasks

INTERNSHIP

TATA Steel **Management Intern** **Jun'23 - Aug'23**

- **Project Details:** Implemented a Project Management-Centric Approach to Optimize the Business Reviews process
  - Utilized tools like Tableau and SAP for comprehensive analysis, bringing actionable insights to project management
  - Engineered savings of **44%** in daily meetings in the South Region and accomplished a **16%** reduction in West Region
- **Initiatives:** Defined meeting KPIs for monitoring and achieving a **33%** reduction in time spent during Review meetings

POSITIONS OF RESPONSIBILITY

- **Elected Member, Students' Product Management Committee at IIM Kozhikode** **2023-24**
  - Led National Product Case Competitions with **600+** registrations, showcasing leadership skills in product management
  - Conducted informative sessions for **100+** students, collaborating with industry Product Managers to share insights
- **Co-coordinator of Coding Club at NIT Allahabad** **2019-20**
  - Managed **3000+** participants, ensuring adherence to rules in offline and online events during the technical festival
